Shade variations to POLYNEON 40 are possible due to the nature of the raw material.

POLYNEON's renowned features of strength, quality shine, intense colour and the highest standards for washing, rubbing and light fastness are all maintained. The POLYNEON FR range is the solution to meet fire regulations for textiles in home & public décor, automotives, hotels etc.

Where extra fire resistant properties are necessary, for example on Fire Protection clothing, MADEIRA's FIRE FIGHTER, made from 100% Aramid is essential and satisfies safety standards. In all cases, to ensure optimum protection, the corresponding POLYENON FR or FIRE FIGHTER should also be used in the bobbin.

POLYNEON ist wegen der hohen Chlorechtheit*△ das ideale Stickgarn für Denim-Wash-Behandlungen und für stark beanspruchte Textilien, die häufig gewaschen werden, wie Sport-, Bade-, Kinder-, Arbeitskleidung, Hotel- und Gastronomie-Wäsche.
